## *Publication List*

### *Mining planning*

Licenses issued by the Chamber of Engineers:

- Endre Dienes (05-0588)
  - B-Sz Mining expert (mine damage and landscape rehabilitation).
- Péter Kiss (05-0594)
  - B-Sz Mining expert (deep hole drilling, shaft sinking, mining operation).

Permits issued by The Hungarian Office for Mining and Geology:

- Péter Kiss (10.003/2046/2007)
  - Geology of solid mineral raw materials.

1. Permission request for a research in lignite area in Komját (1998)
2. The CYCLOCARBON Ltd. III. strip-mining source analysis (coal-dust)
3. Reevaluating the geology of the proposed andesite mine in Bodrogszeg (2000)
4. Application for exploration license in Egerfarmos area (topographical number 0201/8) traffic construction building sand raw material research (2000)
5. Closing report of prospecting about traffic construction building sand raw material research in Egerfarmos area, topographical number 0201/8 (2000)
6. Application for exploration license in Erdőbénye, searching for raw material rhyolite tuff, the areas' topographical numbers are 0112/2, 0113/3, 0113/4 and 0113/5 (2000)
7. Technological operation plan of raw material prospecting in Füzérradvány area, topographical number 013/3 (2000)
8. Technological operation plan of open air drilling lignite's raw material in Múcsony Lánç meadow (2000)
9. Closing report of prospecting about lignitarea of Komját (2000)
10. Application for exploration license in Polgár (topographical number 0236/5) traffic construction building sand raw material research (2000)
11. Closing report of prospecting about Polgár (topographical number 0236/5) traffic construction building sand raw material research (2000)
12. The settlement of the definite mineral resource in Feketevölgy, I. shaft (2001)
13. Budaberke (registered as No. 32799) prospected area's mineral resource's exploration, started 01.01.2001. (2001)
14. Closing report of prospecting about Füzérradvány area, topographical number 013/3 (2001)

15. Closing report of prospecting about Erdőbénye, searching for raw material rhyolite tuff, the areas' topographical numbers are 0112/2, 0113/3, 0113/4 and 0113/5 (2000)
16. Calculating the Kurityán V. mining lease mineral resource (2001)
17. Calculating the Mákvölgyi open air mining No.2. expended area's mineral resource (2002)
18. The settlement of the definite mineral resource of Rudolf IV. shaft (2002)
19. The settlement of the definite mineral resource of Kurityán II. coal open air mining area (2002)
20. Landscape rehabilitation plan of the Kurityán II. (coal) 1503/1996. mining lease's open air mining activity, which is the property of VIRTUÁL Engineer Office Ltd. (28. II/1 Kazinczy F. Street, Miskolc, 3525.) designing a fishpond (2002)
21. Closing report of prospecting about building sand as a raw material in Nyírpazony areas, (topographical number 036/12-18) (2002)
22. The settlement of the definite mineral resource of II. coal opening air mining in Sajókaza (72779 Sajóvölgy mining lease) (2002)
23. Application for exploration license for prospecting rhyodacite raw material in Tibolddaróc (topographic number 038) (2003)
24. Report on the prospecting drilling of the BC Corporation PVC business unit PVC-9 VCM tank's building site (2003)
25. Closing report of prospecting about the brown coal research on "Múcsony Lánç meadow" which is lying on the Edelény I.-Szuhakálló I. joint mining lease (2004)
26. Closing report of prospecting about the andesite research of "Abaújkér" area (2004)
27. Expert opinion on the andesite mine's rock wall material (2004)
28. Closing report of prospecting about "Tibolddaróc" area's dacite research (2004)
29. Evaluation of the drillings searching for a mining pit on the area of chlorine workshop built by BorsodChem Corporation (2004)
30. Geotechnical documentation of a real estate's environment (20, Madách I. Street, Sajószentpéter) (2004)
31. "Múcsony V. coal" mining lease's expert opinion about the degree of exploitation in order to closure the mining lease (2006)
32. Revision of an expert opinion about the mine damage of Sajómercse (2006)
33. Mining expert opinion on the degree of undermining on the BorsodChem Corporation's hydrogen - carbon monoxide factory's area (2007)
34. Mining expert opinion on the degree of undermining on the BorsodChem Corporation's HYCO-3 factory's area (2007)
35. Mining expert opinion on the degree of undermining of the proposed steam-boiler's investment area, which lies on BorsodChem Corporation factory area (2007)
